

Medicare Opt-Out Private Contract

Physicians and practitioners who do not wish to enroll in the Medicare program may “opt-out” of Medicare. This means that neither the physician, nor the beneficiary submits the bill to Medicare for services rendered. Instead, the beneficiary pays the physician out-of-pocket and neither party is reimbursed by Medicare. A private contract is signed between the physician and the beneficiary that states, that neither one can receive payment from Medicare for the services that were performed.
